EDUCATION

L. D. College Of Engineering
B.E. in Computer Engineering

2020 – 2024
7.68 CGPA

ACHIEVMENTS

- Won the grand finale of Azadi ka Amrit Mohatsav Hackathon 2022 with the Project **Parivartan - The NFT Marketplace for Gujarat's cultural artifacts**, gaining a price among 2000 Gujarat teams.
- Our Hackathon project (mentioned above) has been funded under **SSIP 2.0** (Student Startup and Innovation Policy) by the Gujarat Government with a grant.

WORK EXPERIENCE

Differenz System Pvt Ltd
Junior Software Engineer

July 2024 – Present
Surat, Gujarat

- Developed and optimized Android applications using Kotlin and Java and enhancing app performance.
- Implemented user interface designs like with **motion Layout**, trimming a video for applications.
- Integrated **APIs, optimized Room Database**, and leveraged coroutines for smooth async operations.
- Implemented a solution for **edge-to-edge functionality in SDK 35**, addressing the deprecation of colors-padding and ensuring a seamless, modern UI experience.

Health Branch
Android Developer

Jan'23 - May'23
Remote

- Revitalized the UI for the **Asha** app, commissioned by the Health Branch, District - Sabarkantha, Government of Gujarat, streamlined **the process of tracking and managing incentives** for Asha workers.

PROJECTS

Repository 🚀
Kotlin, Retrofit

Feb' 25

- Developed an Android application using Kotlin that fetches and displays user repositories from a remote API, **supports offline caching**, and includes a search functionality for better user experience.
- Integrated Google Sign-In for authentication and Firebase Cloud Messaging (**FCM**) for push notifications.
- Designed the app using **MVVM architecture**, ensuring clean, modular, and testable code.

PasswordManager 🔒
Kotlin, Jetpack Compose

June' 24

- Implemented **biometric authentication**, scheduled notifications, and robust password encryption.
- Hilt was used for dependency injection to improve code maintainability and integrated the app with **Android WorkManager** to efficiently handle background tasks, ensuring optimal performance.

InfoAPI 🍷
Dart, BLoC, REST API

July' 24

- Built a Flutter app with **BLoC architecture**, improving data retrieval speed by 40%. With a consistent UI, including detailed screens with complete meal information (images, descriptions, categories).
- Created a user form with fields and **comprehensive validation** for name, email, phone, gender, etc.
- **Integrated an audio player** to play audio files from assets, enhancing user experience.

TECHNICAL SKILLS

Android Development: Kotlin, Java, Jetpack Compose, Room, Hilt, Retrofit

Other Languages: Python, Dart

Frameworks: Firebase, Flutter, etc.
